1 As of 12/31/04
Privileged Choice is one of the most comprehensive long term care insurance policies available. Once you qualify for benefits, Privileged Choice pays you for covered care received in your home or your community, Assisted Care Facilities (including Alzheimer's facilities), and in Nursing Homes.

Privileged Choice provides either shared or individual coverage. The superior value and convenience of a shared policy holds great appeal for couples, while single people will appreciate the way benefits of an individual policy can meet their needs.
HOME AND COMMUNITY CARE¹ COVERAGE

Many people prefer to stay in the comfort of their own home when they need long term care. Privileged Choice is there for you when the covered care and services you need can come to your home – where, surrounded by friends and family, you’re most comfortable.

We will pay you for actual expenses incurred for the covered care and services below, up to 100% of a Monthly Maximum that you choose. And, these benefits are payable from day one without an Elimination Period.

**Skilled Services**² Nursing care and physical, occupational, respiratory and speech therapy from licensed professionals.

**Home Health Aides and Personal Care Attendants** Help with personal hygiene, simple health care tasks, activities of daily living and managing medications.

**Homemaker Services** Assistance with preparing meals, doing laundry and light house cleaning, such as vacuuming, mopping, and washing dishes.

**Chore Services** Help with minor household repairs, taking out the garbage and related tasks that help ensure your safety at home. These do not need to be performed by a trained individual.

**Hospice Care** Care provided to relieve your physical and emotional discomforts in your home or in a licensed or certified facility, if you become terminally ill.

**Adult Day Care**³ A program of social and health-related services provided during the day in a community group setting outside your home.

Couples may purchase two individual policies or share coverage under one shared policy.

---

¹ Home Health and Community Care in Louisiana. Adult foster care is also covered in Idaho and Oregon.

² Services of a licensed dietary therapist are covered in Maine.

³ In Vermont, these are services offered by facilities that provide social, health, respite, and other services for small groups of functionally impaired adults in group settings during specified hours of the week. In Kentucky, this means a program for four or more individuals, of social or health-related, or both, services provided during the day in a community group setting for the purpose of supporting frail, impaired elderly or other disabled adults who can benefit from care in a group setting outside the home.
The following benefits are also available.

**Caregiver Training**  Training for an informal, unpaid caregiver (such as a person you live with, a friend or relative) to help care for you at home. Maximum lifetime reimbursement - up to 20% of your Monthly Maximum.

**Equipment and Home Modification**  Purchase and installation of items, such as a ramp, a stair lift for going between levels of your home, grab bars to assist in bathing or toileting or other supportive equipment, that enable you to stay in your home for at least 90 days. Maximum lifetime reimbursement - up to 2 times your Monthly Maximum.

Under our policy, the term “couples” can apply not only to spouses, but also to two people who meet our criteria for living together in a committed relationship and sharing basic living expenses.

Care providers can be independent and not affiliated with a home care agency. For unskilled services, even your friends and neighbors can provide some of your care.
PRIVILEGED CARE® COORDINATION

This service provides you with a Privileged Care Coordinator who can help you find care providers and manage your care needs. These coordinators are trained professionals from a nationwide network of local experts familiar with the long term care services available in your community. Whether you choose to use a Privileged Care Coordinator or not is up to you, but when you do, we pay for the costs of their services, and your Personal Benefit Account is not reduced by those costs.

A Privileged Care Coordinator:
• Assesses your care needs and along with you, your family and personal physician, develops your Plan of Care, which outlines the care and services you need.
• Helps find providers and schedules covered care and services.
• Provides ongoing care monitoring and modifies your Plan of Care as your needs change.
• Helps you complete initial claims forms; but does not make claims decisions.

You should be comfortable with the care providers helping you, and the flexibility of Privileged Choice gives you the freedom to choose care providers that you like. After meeting with you, your Privileged Care Coordinator will identify and recommend care providers in your area matched to your particular needs. You can select the providers that you want. You may also ask your coordinator to find more providers for you to choose from. And, if you want to change providers at any time for any reason, you can do so, the same as you can with your Privileged Care Coordinator.

We pay for the cost of Privileged Care Coordination — the cost is not deducted from your Personal Benefit Account.
You may find that the best place to receive care is not in your home, but in a covered facility.

Once you satisfy the Elimination Period, we will pay you for expenses incurred for covered care and services in the facilities below. Privileged Choice pays you up to 100% of your selected Monthly Maximum.

- Assisted Care Facilities  
  (including Alzheimer’s facilities)
- Nursing Homes  
  (including private duty nursing care)

**Temporary Absence Coverage**  While you are receiving Facility Care Coverage, you may reserve your room or bed for any reason, such as to celebrate a holiday, visit your family, or to temporarily enter a hospital. If you do reserve your room or bed, we will continue to provide your Facility Care Coverage to help ensure that your place will still be there for you upon your return. Reimbursement up to 60 days a year, each year, for the life of your policy.
INCLUDED FEATURES AND BENEFITS

Alternate Care Benefit  Your policy may not specifically identify every foreseeable type of care you need. So, to cover these expenses we offer an Alternate Care Benefit. This benefit pays you for additional care, services, treatment, equipment, supplies, or other items not otherwise covered in your policy that will be helpful to you. If you, your doctor and we all agree, and the items are reflected in your Plan of Care, you will be reimbursed for their cost. Examples include, but are not limited to, in-home safety devices, home-delivered meals, and rental of emergency medical response devices.

Respite Care  If your primary, unpaid caregiver needs to take a temporary break, we pay Facility Care and/or Home and Community Care Coverage benefits for the covered care you receive during that time. There is no Elimination Period requirement that you must satisfy, so benefits become payable immediately. Reimbursement up to your Monthly Maximum each year – for the life of your policy.

Waiver of Premium  When you need care, the last thing you should have to worry about is paying another bill. That’s why we waive your premium payments for each coverage month that begins:

• when you’re receiving benefits for home care in accordance with a Privileged Care Coordinator’s Plan of Care, or

• after satisfying the Elimination Period if you’re receiving either Facility Care or Home and Community Care Coverage benefits without a Privileged Care Coordinator’s Plan of Care.  

International Coverage  If you receive covered care and support services in a qualified nursing home that is not in the United States, you will be reimbursed for covered out-of-country nursing home care expenses, up to 75% of your Monthly Maximum for up to 48 months. However, premiums will not be waived, and no other policy benefits will apply while you are out of the country.

Premium Stability  While we reserve the right to raise future premiums for all policyholders by class and state, your premiums will never increase due to changes in your health status or age.

Guaranteed Renewable  Once you’re insured, as long as you pay your premiums on time and your benefits have not been exhausted, your coverage is guaranteed renewable and cannot be canceled by us.

Protection Against Policy Lapse  If your policy lapses, we will reinstate it if, within 7 months after the lapse, you received care or services that would have been covered had the policy not lapsed, provided that you pay any past due premiums. We would need to receive acceptable proof that you met the requirements to qualify for covered benefits.

Late Payment Protection  To help assure that your policy doesn’t lapse by mistake, you may designate another person for us to notify if we do not receive your premium payment on time.

1 Home Health and Community Care in Louisiana.
2 In Missouri this also applies when the Plan of Care is from an Independent Care Advisor who is not affiliated with a home care agency.
30-Day Free Look  If you are not completely satisfied with your policy, return it within 30 days of receipt for a full refund, with no questions asked.

Survivorship Benefit1  For couples who have each had long term care coverage with Survivorship Benefits with us for at least 10 years, when one dies, no further premiums will be required for the duration of the survivor’s coverage. This benefit does not apply if any covered benefits were payable2 for the first 10 years of concurrent coverage.

DISCOUNTS

Preferred Health Discount  If you are eligible and in good health when you apply, you can receive a 20% discount on your premiums for the life of your policy, if you apply alone (the Preferred Health Discount is 10% if you also qualify for the Couples Discount).

Discounts for Couples
• If both of you are eligible, apply for, and are issued individual policies, both of you will receive a 40% premium discount.
• If both of you are eligible, and apply for individual policies, but just one of you is issued a policy, he or she will receive a 25% premium discount.
• The preferred health discount of 10% can be combined with a couples discount, which means that your total discount could be as high as 50% each (35% if only one is issued a policy).

The rates for shared benefit coverage are already discounted for couples. Each person can also qualify separately for a preferred health discount.

SHARED BENEFIT COVERAGE FOR COUPLES

Features of shared benefit coverage include:
• One policy  Identical coverage for both of you.
• A shared Personal Benefit Account  Access benefits separately or together at the same time (until combined benefits paid exhaust the Personal Benefit Account).3 The shared Personal Benefit Account remains available after one of you dies.
• Joint Waiver of Premium  The premium applicable for both is waived even if only one person qualifies for the waiver.
• One billing statement  Both people are covered under one billing statement, so you only have to write one check.
• Premiums reduced  If one person dies, premiums will be reduced for the survivor unless premiums are waived by a Survivorship Benefit.
• Conversion option  In the event a couple’s relationship terminates due to divorce or final separation, they have the opportunity to continue their shared coverage or to convert to individual coverage.

Under shared benefit coverage, the Monthly Maximum and Elimination Period apply to each person separately.

1 This benefit does not apply in Washington state.
2 Does not apply in Oregon.
3 In Arizona, a minimum of 24 months of coverage is required to be available for each person. In New Jersey, a minimum of 12 months of coverage is required to be available for each person.
The following options are available for additional premiums.

**Inflation Protection** Helps the value of your policy keep up with inflation, allowing for annual increases in your Monthly Maximum and Personal Benefit Account for as long as your policy remains in force. These increases will be credited annually on each policy anniversary depending on the inflation option you have chosen, and will not be reduced because of any claims paid.

You may choose either:

- **Compound Increases Option**: Your Monthly Maximum and Personal Benefit Account increase each year by 5% of their previous year’s amounts (and in the calculation of those amounts, they are not reduced by claims paid, unlike some other policies).

  OR

- **Equal Increases Option**: Both your Monthly Maximum and Personal Benefit Account increase each year by 5% of their original year’s amounts. Claims payments you receive will not reduce the amount of your increases.

If your Personal Benefit Account reduces to zero it will not be replenished by either of these increase options, and your policy terminates.

**Restoration of Benefits** If you receive benefits from your Personal Benefit Account, and then recover and are no longer eligible for benefits for a period of 180 days while your policy remains in force, your Personal Benefit Account will be completely restored to the amount that would have applied if no benefits had been paid. There is no limit to the number of times your benefits can be restored to full value in this way.

However, for shared benefit coverage, when one person dies your Personal Benefit Account will not be restored for any benefits paid for the deceased that were not previously restored.

If your Personal Benefit Account reduces to zero, it will not be restored under this Rider, and your policy will terminate.

**Nonforfeiture Benefit** Lets you keep some protection under your policy should it lapse after three years. This benefit provides you with a reduced, paid-up Personal Benefit Account equal to the total of all the premiums you’ve paid into your policy or your Monthly Maximum at the time your policy lapses – whichever amount is greater.

**Enhanced Survivorship Benefit**

An alternative to the built-in Survivorship Benefit. For couples who have each had long term care coverage with 7 Year Survivorship Benefits with us for at least 7 years (instead of 10 years), when one dies, no further premiums will be required for the duration of the survivor’s coverage. And, this benefit applies even if covered benefits were paid during these years.

---

1 Equal Increases Option is not available in Idaho, Delaware, Wisconsin.

2 In Washington state, 10 Year built-in Survivorship does not apply and only this Enhanced Survivorship Benefit is available.

There is no Elimination Period for covered Home and Community Care Coverage benefits.⁴ Plus, when you use a Privileged Care Coordinator, your Elimination Period for Facility Care Coverage benefits is reduced by one day for each day you receive Home and Community Care Coverage benefits.

You only have to satisfy your Elimination Period once, for the life of your coverage.

WE WANT YOU TO KNOW

• Our policies are intended to be qualified long term care insurance contracts under federal tax law. You should consult your tax advisor to determine the income tax implications of your paying premiums and receiving benefit payments.

• This is not Medicare supplement insurance. Discuss with your insurance representative how long term care insurance would work relative to other medical expense coverage you currently have.

• You should not purchase any long term care insurance if:
  – You currently receive or may soon receive Medicaid benefits.
  – You have limited assets and can’t afford the premiums over the lifetime of your policy.
  – Your only source of income is a social security benefit or supplemental security income.

• If you choose a payment mode other than annual, you will pay additional charges for selecting that payment mode.

• As part of the underwriting process, we may obtain copies of medical records from your doctor. Delays in receiving any necessary information may cause the underwriting process to extend beyond the usual 30 to 45 days.

• Any incorrect or omitted information in your application may result in your coverage being rescinded (voided) or a claim being denied.
